NOTICES

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

- 10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
- 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
- 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
- 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
- 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
- 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Mr. Laughren*—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.

2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
 3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
43. *Mr. Mancini*—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on jury awards.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 11

Mr. Laughren—Resolution—That in the opinion of this House, the Government should extend the use of the Ontario Senior Citizens' Privilege Card to all retired and disabled persons, to allow them access to reduced or free admission to exhibitions, museums, theatres, provincial parks and other special services now only available to senior citizens 65 years of age and over. *To be debated today.*

Ballot Item No. 12

Mr. Mancini—Resolution—That in the opinion of this House, the federal government's decision to reduce, by two percentage points, the annual growth in per capita EPF transfers, resulting in a cumulative loss of \$2 billion to Ontario's Health Care and Post-Secondary Education System by 1990-91, be condemned as an unfair transfer of the federal deficit to the provinces. *To be debated today.*

Ballot Item No. 13

Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. *Mr. O'Connor.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. *Mr. Pouliot.* *To be debated on Thursday, June 26, 1986.*

Ballot Item No. 15

Mr. Smith (Lambton)—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on jury awards. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 16

Mr. Wiseman—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 21

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

(2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
25. *Debated Thursday, June 19, 1986.*
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and

expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

43. *Debated Thursday, June 19, 1986.*

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for

freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

48. *Mr. Shymko*—Resolution—That in the opinion of this House, the Government of Ontario should urge the Government of Canada to take the following urgently needed actions to defend the physical and mental health of peoples affected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger, both domestic and international;
 2. that Canada declare its preparedness to contribute emergency aid such as medicine, food and technical personnel to help in treating the Chernobyl disaster victims either in the USSR or in our own medical facilities in Canada;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit more direct communication between Canadians and their relatives or friends in Ukraine.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Items Nos. 11 and 12. *Debated Thursday, June 19, 1986.*

Ballot Item No. 13

Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. *Mr. O'Connor. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. *Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 15

Mr. Smith (Lambton)—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 16

Mr. Wiseman—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 21

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
6. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing July 1, 1986, and ending October 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.

46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

48. *Mr. Shymko*—Resolution—That in the opinion of this House, the Government of Ontario should urge the Government of Canada to take the following urgently needed actions to defend the physical and mental health of peoples affected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger, both domestic and international;
 2. that Canada declare its preparedness to contribute emergency aid such as medicine, food and technical personnel to help in treating the Chernobyl disaster victims either in the USSR or in our own medical facilities in Canada;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit more direct communication between Canadians and their relatives or friends in Ukraine.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 13

Second Reading Bill 42, An Act to regulate the Activities of Paralegal Agents. *Mr. O'Connor. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 14

Second Reading Bill 46, An Act to amend the Ontario Institute for Studies in Education Act. *Mr. Pouliot. To be debated on Thursday, June 26, 1986.*

Ballot Item No. 15

*Mr. Smith (Lambton)—Resolution—*That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 16

*Mr. Wiseman—Resolution—*That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 21

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier.*

Ballot Item No. 24

*Mr. Callahan—Resolution—*That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-

wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6)

calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor

stores and LCBO warehouses, with the full proceeds going to victims of apartheid.

- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

48. *Mr. Shymko*—Resolution—That in the opinion of this House, the Government of Ontario should urge the Government of Canada to take the following urgently needed actions to defend the physical and mental health of peoples affected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger, both domestic and international;
 2. that Canada declare its preparedness to contribute emergency aid such as medicine, food and technical personnel to help in treating the Chernobyl disaster victims either in the USSR or in our own medical facilities in Canada;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit more direct communication between Canadians and their relatives or friends in Ukraine.

NOTICES

GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor

stores and LCBO warehouses, with the full proceeds going to victims of apartheid.

- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

48. *Mr. Shymko*—Resolution—That in the opinion of this House, the Government of Ontario should urge the Government of Canada to take the following urgently needed actions to defend the physical and mental health of peoples affected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger, both domestic and international;
 2. that Canada declare its preparedness to contribute emergency aid such as medicine, food and technical personnel to help in treating the Chernobyl disaster victims either in the USSR or in our own medical facilities in Canada;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit more direct communication between Canadians and their relatives or friends in Ukraine.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor

stores and LCBO warehouses, with the full proceeds going to victims of apartheid.

- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item Nos. 13 and 14. *Debated Thursday, June 26, 1986.*

Ballot Item No. 15

Mr. Smith (Lambton)—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 16

Mr. Wiseman—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions. *To be debated on Thursday, July 3, 1986.*

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. Mr. Breaugh. To be debated on Thursday, July 10, 1986.

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier. To be debated on Thursday, July 10, 1986.

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
45. *Mr. Wiseman*—Resolution—That in the opinion of this House, the Government through the Ministry of Industry, Trade and Technology and the Ontario Development Corporation should make available a Small Business Improvement Loan. The purpose of this loan would be to assist businessmen who have been established at least five years to renovate or enlarge their premises and allow them to upgrade existing fixtures. The loan, to a maximum of \$50,000.00 would be payable within 10 years with a loan under \$25,000.00 to be repaid in 5 years, at an interest rate of 2% lower than prime. This initiative would provide Ontario's service industry with a means to improve their facilities without penalizing present borrowing rates while increasing business and enhancing consumer conditions.
46. *Mr. Smith (Lambton)*—Resolution—That in the opinion of this House, given the present trend towards ever escalating court awards in the liability insurance sector, and the resultant detrimental effect on the availability and affordability of insurance coverage, the Government should consider placing legislated limits on court awards.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor

stores and LCBO warehouses, with the full proceeds going to victims of apartheid.

- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
 - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
 - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
 - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
 - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
 - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

NOTICES

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
7. *Mr. Nixon*—Resolution—That this House express its appreciation to Roderick Lewis for his dedication and years of service as Clerk of the Legislative Assembly; and that, notwithstanding the customs of Parliament, the Clerk be invited to address the House.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus

and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

45 and 46. *Debated Thursday, July 3, 1986.*

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item Nos. 15 and 16. *Debated Thursday, July 3, 1986.*

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. *Mr. Shymko. To be debated on Thursday, July 17, 1986.*

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on Thursday, July 17, 1986.*

Ballot Item No. 24

*Mr. Callahan—Resolution—*That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of

Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6)

calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

(1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

(2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the

judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.

- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
 - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and

to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

336. *Mr. Jackson*—Enquiry of the Ministry—Would the Minister of Transportation and Communications provide documents indicating the anticipated starting date of full GO Train service to Burlington; to Hamilton; the anticipated completion date and locations for all new stations required between Oakville and Hamilton. *July 7, 1986.*
337. *Mr. Gregory*—Enquiry of the Ministry—Would the Minister of Transportation and Communications indicate how many condominium units have been allocated to the Ontario Government at Expo '86; who has stayed in these units as of June 6, 1986; the fee charged for these units per diem; who has reserved these units after June 6, 1986. *July 7, 1986.*
338. *Mr. Runciman*—Enquiry of the Ministry—Will the Minister of Financial Institutions advise as to whether or not the Ontario Securities Commission investigated the circumstances surrounding the collapse of PEC Financial Corporation. If no such investigation was carried out, will he indicate why not. If an investigation was carried out will he indicate the results of that investigation. *July 7, 1986.*
339. *Mr. Reville*—Enquiry of the Ministry—Would the Minister of Housing provide the following information:—If the Residential Complexes Costs Index, as defined in Bill 51, equals 5.1%, as stated by the Minister in the Legislature on July 3, 1986, is it true that (a) rental buildings experiencing economic loss could be subject to an increase of up to 10.1%; (b) rental buildings with rents that are “chronically depressed” could be subject to an increase of 7.1%; (c) newly-constructed buildings could experience an increase of up to 15.3% (three times the guideline) if such an increase was required so that the landlord can achieve the rate of return guaranteed by Bill 51. *July 7, 1986.*
340. *Mr. McLean*—Enquiry of the Ministry—Would the Minister of Transportation and Communications supply the House with all supplementary allocations and names of all individual approvals by your Ministry for all counties, regions, villages, towns, cities, and townships in Ontario including the amount of dollars of each approval since January 1, 1986. *July 7, 1986.*
341. *Mr. McLean*—Enquiry of the Ministry—Would the Acting Minister of Government Services supply the following information of all staff hired, names and their positions within the Legislative Building, including telephone operators, the date hired and salaries, since June 26, 1985. *July 8, 1986.*
342. *Mr. McLean*—Enquiry of the Ministry—Would the Premier provide the House with the names, positions of the Minister's staff when they were

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. *Mr. Shymko. To be debated on Thursday, July 17, 1986.*

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on Thursday, July 17, 1986.*

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
 - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
 - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
 - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
 - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
 - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
 - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.

- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
 - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and

to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated on Thursday, July 10, 1986.*

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. *Mr. Shymko. To be debated on Thursday, July 17, 1986.*

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on Thursday, July 17, 1986.*

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

NOTICES

GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter

complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy

proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.

10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by mak-

ing additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
 - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
 - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
 - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
 - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.

- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and

to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. Mr. Breaugh. To be debated on the first Thursday of the Falling sitting.

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. Mr. Poirier. To be debated on the first Thursday of the Fall sitting.

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. Mr. Shymko. To be debated on the second Thursday of the Fall sitting.

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on the second Thursday of the Fall sitting.*

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extentions of com-

pletion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.

NOTICES

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
8. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing November 1, 1986, and ending December 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research

facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, October 16, 1986.*

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated on Thursday, October 16, 1986.*

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. *Mr. Shymko. To be debated on Thursday, October 23, 1986.*

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on Thursday, October 23, 1986.*

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate

what further protection could be given to these purchasers. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 22

Mr. McCague—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held. *To be debated on Thursday, November 6, 1986.*

NOTICES

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
8. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing November 1, 1986, and ending December 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breough*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research

facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:

1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Thursday will appear on each day of the following week.)

380. *Mr. McLean*—Enquiry of the Ministry—Would the Acting Minister of Government Services provide the House with the names of all members who have a car assigned to them, all members' staff that have cars assigned to them, their names, position held, and all staff that have the use of a government vehicle since June 26th, 1985. *October 14, 1986.*
381. *Mr. Sterling*—Enquiry of the Ministry—Would the Minister of the Environment provide details of charges laid against Ault Foods Ltd. in Winchester, Burton Sanitation in Kingston, DuPont Canada Ltd. in Maitland, the Greater Napanee Water Supply, Pembroke Sanitary Services, Ontario Hydro in Perth, and the Village of Merrickville. Would the Minister include the date of the offence, the facts surrounding the offence, the status of the case, and any correspondence of explanations given to him by each of the defendants. *October 14, 1986.*
382. *Mr. Sterling*—Enquiry of the Ministry—Would the Minister of the Environment table all reports relating to a chemical spill which occurred in early May of this year by Hilan Wood Preservative Co. in Kemptville. Will the Minister assure the residents of the area that there is no danger to the groundwater and wells of the area. *October 14, 1986.*
383. *Mr. Davis*—Enquiry of the Ministry—Would the Minister of Education provide a complete list outlining the number of grade twelve students enrolled in co-operative education programs in each school board across the province during 1985-86, the number of schools participating in co-operative education programs in each school board and the cost of these programs per student for each school board and school. *October 14, 1986.*
384. *Mr. Davis*—Enquiry of the Ministry—Would the Minister of Education provide copies of all capital expenditure forecasts for 1986-87 submitted to the Ministry by all of the province's school boards. *October 14, 1986.*
385. *Mr. Wiseman*—Enquiry of the Ministry—Would each Minister provide all details for any courier contracts held by the Ministry since June 26, 1985. Specifically, the total amount of the contract(s), the criteria for cost per item, the criteria for use, the frequency used, the approval required for use. *October 15, 1986.*
386. *Mr. McCague*—Enquiry of the Ministry—Would the Premier provide all details involving the implementation of the Board of Internal Economy's decision to supply all Members with a T.V. and both in-house and out-of-house cable. Specifically, were the contracts for supplying the televisions,

installing the televisions, and the necessary furniture tendered. *October 15, 1986.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item No. 17

Second Reading Bill 16, An Act to amend the Municipal Act. *Mr. Breaugh. To be debated on Thursday, October 16, 1986.*

Ballot Item No. 18

Second Reading Bill 91, An Act to amend the Human Tissue Gift Act. *Mr. Poirier. To be debated on Thursday, October 16, 1986.*

Ballot Item No. 19

Second Reading Bill 49, An Act to amend the Landlord and Tenant Act. *Mr. Shymko. To be debated on Thursday, October 23, 1986.*

Ballot Item No. 20

*Mr. Hayes—Resolution—*That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. *To be debated on Thursday, October 23, 1986.*

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate

what further protection could be given to these purchasers. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 22

Mr. McCague—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held. *To be debated on Thursday, November 6, 1986.*

GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
8. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing November 1, 1986, and ending December 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
 2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
 3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
 4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
 - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
 - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
 - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
 - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
 - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research

facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

Ballot Item No. 21

*Mr. Offer—Resolution—*That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate

what further protection could be given to these purchasers. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 22

Mr. McCague—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held. *To be debated on Thursday, November 6, 1986.*

 8. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing November 1, 1986, and ending December 31, 1986, such payments to be charged to the proper appropriation following the voting of Supply.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the

Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.

5. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:

- (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;

- (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
 11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
 15. *Mr. McCague*—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manufactured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles.
 16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
 18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
 21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the

growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.

23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal

value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.

36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
37. *Mr. Callahan*—Resolution—That, in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held.
40. *Mr. Swart*—Resolution—That in the opinion of this House, recognizing that the Slater Task Force has failed to propose recommendations to resolve the massive insurance problems and, in particular, failed to investigate and report on the financial and other benefits of the public auto insurance plans as practiced in Manitoba, Saskatchewan, and British Columbia, the Government of Ontario should proceed, immediately, with the development of the most appropriate provincial public motor vehicle insurance plan for implementation not later than January 1, 1988. Such plan, unlike the Slater recommendations, would fully redress the major problems of the present system identified by the NDP Caucus Insurance Committee, namely:—arbitrary cancellation of insurance;—all drivers in a household penalized for one driver's record;—discriminatory rates for age, sex or marital status;—the growing number of uninsured drivers in Ontario;—non-existent or inadequate no-fault compensation;—excessive premiums and escalating rates generally.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
 1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
 2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
 - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
 - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
50. *Mr. Offer*—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research

facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
 1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
 2. to provide local employment in Northern communities;
 3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
 1. to continually review gasoline prices;

2. to hold public hearings to determine a fair and reasonable price for gasoline products;
 3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
 4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)

Ballot Item Nos. 17 and 18. *Debated Thursday, October 16, 1986.*

Ballot Item No. 19

Second Reading Bill 133, An Act to amend the Liquor Control Act. Mr. Shymko. To be debated on Thursday, October 23, 1986.

Ballot Item No. 20

Mr. Hayes—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated. To be debated on Thursday, October 23, 1986.

Ballot Item No. 21

Mr. Offer—Resolution—That in the opinion of this House, recognizing that purchasers of new homes are severely inconvenienced by multiple extensions of completion dates, the Ontario New Home Warranty Program immediately investigate what further protection could be given to these purchasers. To be debated on Thursday, October 30, 1986.

Ballot Item No. 22

Mr. McCague—Resolution—That this House recognizes the improved safety resulting from eye-level brake indicators on automobiles, and strongly encourages the Minister of Transportation and Communications to take appropriate measures: encourage the seeking of mandating of their installation on all new vehicles manu-

factured for sale in Ontario; to encourage citizens of Ontario to retrofit their vehicles. *To be debated on Thursday, October 30, 1986.*

Ballot Item No. 24

Mr. Callahan—Resolution—That in the opinion of this House, as the public does not understand the method of establishing levels of remuneration of Boards of Education and Municipal Councils and as there is no consistent principle province-wide, the Education Act and the Municipal Act should be amended so that any increase in honorarium to a Board of Education or Municipal Council may be made only once in a term of such Board or Council and within 60 days of the date on which an election is to be held. *To be debated on Thursday, November 6, 1986.*
